THRU : Chief, Industrial Division, ORR
Acting Chief, Electrical Equipment Branch, D/I, ORR

19 September 1957

forwarded 20 Sept

Requirements Submitted in Response to ORR 11866

The following requirement is submitted:

25X6A

Describe the latest developments in [REDACTED] research relating to electrical equipment with which the source is familiar. In particular, outline the economic cost of such equipment in comparison to previously used equipment and to equipment used by other countries. If specific cost factors are not available, describe the design objectives of the new equipment in terms of increasing or decreasing the requirements for scarce metals and other materials, labor and capital equipment. In addition, supply information concerning actual or planned production of electrical equipment and the production facilities used.
